

## Editorial Note for the Last Issue of EKOLOJI

This issue denotes the end of a long era. We founded EKOLOJI in 1991 to promote environmental awareness. For more than 27 years, we published articles of environmentally related issues such as environmental problems, air/water contamination, visual and audial pollutants, natural resources, environmental engineering and health, climate change, and biodiversity. The journal was read and contributed to by biologists, applied ecologists, environmental scientists, natural resource specialists, environmental engineers, environmental health specialists, agro-ecologists, veterinaries, agricultural engineers, landscape planners and designers.

When we founded EKOLOJI, the field of environmental sciences was an expanding discipline, providing fewer journals. However, during the course of these past years, the field is matured and many core discipline and multidisciplinary online and print journals have emerged. After careful considerations and long evaluations, we decided that the journal has already achieved its original objectives and we decided to cease the publication. Entire content and past issues will remain accessible from the journal website, but we will not publish any additional issues of the journal after this last issue.

We invite our authors to direct their scientific works to many related high-quality journals, some of which are listed below:

Journal name	Website address
eLife	<a href="https://elifesciences.org/">https://elifesciences.org/</a>
Sustainability	<a href="https://www.mdpi.com/journal/sustainability">https://www.mdpi.com/journal/sustainability</a>

Hereby, we would like to acknowledge the invaluable and continuous support of all persons who have been involved in publishing EKOLOJI over the years. Our heartfelt appreciation goes to all authors who have contributed to the journal. In particular, we would like to thank our current and past editors, members of the international editorial and advisory board, and fellow reviewers, without whom we would not be able to publish high-quality manuscripts over the years.

Best regards,  
Editorial Office of EKOLOJI
